See PegaPlan @ LTE World Summit 2011

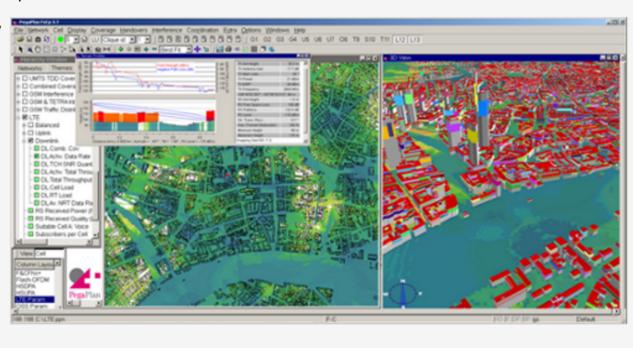

Event: LTE World Summit 2011

Location: Amsterdam, Netherlands

Date: Exhibition: Directly connected to the summit location, entrance free, booth 18A T-Systems PegaPlan

For the seventh time mobile communication industry meets on the LTE world summit to discuss latest trends and developments. T-Systems presents PegaPlan, the comprehensive solution for radio network planning for small, medium and large network operators.

LTE is established as new standard for mobile communications and worldwide mobile operaters are driving forward the planning of networks in the new standard. PegaPlan supports this process ideally. Not only is PegaPlan capable to plan networks of 2G, 3G and LTE as 4G in one single run, thus offering the

operator the advantage to plan the new network in conjunction with already existing networks.
